

To all Members:-

The Romney Hythe & Dymchurch Railway Association

15 October 2015

Hello

I am taking this highly unusual step in writing to you individually because of a problem encountered with the packing and distribution of Marshlander 192, Autumn 2015.

In this edition you will have read my Chairman's Notes and expected to have seen a separate appeal notice for the Associations' Special Projects Fund.

Unfortunately, this appeal notice, although produced, was accidentally omitted from the packing of the Marshlander by our printing and mailing company.

Fortunately, they have accepted responsibility for this omission and I have pleasure in enclosing the missing appeal notice for your consideration and attention.

As you will appreciate both from my notes and the Special Projects appeal notice, this is a matter very close to the heart of the Association and the Railway and something that required distribution as soon as possible.

I am pleased to advise that our printing and mailing company, in accepting responsibility for this omission, are covering all the production and mailing costs associated with getting this appeal notice to you as quickly after receipt of Marshlander 192 as possible.

I would ask that you consider the Special Projects Appeal and make a donation, of whatever the size you can afford, as soon as possible and please remember, if at all possible to Gift Aid your donation as well.

Thankyou for your continued support and donations,

Steve Godden

Chairman - RHDR
